DETAILED ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Carl T. Reed (Reg. No.: 45,454) on 28 September 2004.

The application has been amended as follows:

In the claims:

2. In claim 1, lines 22-23, please delete "race" between "second" and "enters" and insert -face—therefor.

Allowable Subject Matter

3. Claims 57-80 are allowed.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance: The claims are allowable over the prior art for at least the reason that the prior art fails to teach or to reasonably suggest, with regard to claims 57-72, *[a]n optical polarization beam splitter comprising (among other things) a birefringent walk-off crystal, said birefringent walk-off crystal having a thickness between said first and second faces, wherein said thickness and said angle of said first face are selected such that a walk-off*

distance between the first component and said second component substantially matches a spacing between said second and third optical fibers; with regard to claims 73-77, [a]n optical polarization beamsplitter comprising (among other things) refracting means disposed at an angle to said first optical axis, said angle being selected such that said at least two components walk off by a distance substantially equal to a spacing between said first and second optical axis; and with regard to claims 78-80, [a]n optical polarization beam splitter comprising (among other things) a birefringent crystal disposed on a face of said second fiber ferrule, said birefringent crystal having a thickness and an incident angle with respect to an optical axis of said first optical fiber that is selected such that a walk off distance of the crystal substantially matches a spacing between said second optical fiber and said third optical fiber, as set forth in the claimed combination.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
